

**Dassault MRO**

CABIN INTERIOR

# FALCON 7X **SEATS**

Upgrade your aging Decrane  
seats to the latest design !

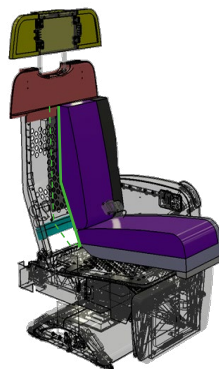

Say goodbye to outdated interiors and welcome cutting-edge technology  
fused with OEM expertise and our MRO craftsmanship & know-how.

In just under 5 weeks,  
we offer a comprehensive  
solution: not only refurbishing  
all your seats but also imparting a  
contemporary aesthetic and improving  
their maintainability for the duration of their  
operational life.

## **NEW TECHNOLOGY** **SUPPORTING SEAT REFURB**

The new 3D kit developed and certified by our  
Part21 department, **enhances the reproducibility  
of the assembly process**, resulting in superior  
quality finishes.

## PLUG & PLAY DESIGN

Experience our Plug & Play design: now, **cushion and backrest removal and refitting take less than 1 minute**, enhancing operational maintainability. Gain swift access to lumbar support or seat belt mechanisms for adjustments or leather repairs.

## SPARE KIT

Secure a spare kit **to ensure uninterrupted seating comfort** while maintaining aircraft in operation. With a spare set comprising both backrest and cushion, you can seamlessly address any wear and tear, in intensive flight program or preserve VIP seating.

## 6 PRESELECTED DESIGNS

Anticipation is key for success !  
To assist our customers, DABS has fully completed 6 seats: explore our array of **preselected designs**, each curated to showcase all possible combinations. **Take proactive steps to benefit from a 5-week aircraft downtime for seat refurbishment.**
